

ORTHOINDY HOSPITAL

On March 1, 2005, the physicians of OrthoIndy opened OrthoIndy Hospital, formally known as Indiana Orthopaedic Hospital, central Indiana's first specialty hospital with a direct focus on bone, joint, spine and muscle care. As a physician-owned hospital model, OrthoIndy Hospital's top priorities are patient safety, satisfaction and outcomes.

The nationally ranked hospital provides orthopedic care, including complex surgical procedures such as, total joint replacements and spinal operations, in a safe and like-home environment. Today, there are three OrthoIndy Hospital facilities. OrthoIndy Hospital Main (Indianapolis) provides inpatient and outpatient services, including imaging and physical therapy. OrthoIndy Hospital South (Greenwood) and OrthoIndy Hospital West (Brownsburg) are hospital outpatient departments, equipped with outpatient surgery, imaging and physical therapy.
