

# Morgan Clarkson, PA-C

Orthopedic Urgent Care Provider

Senior Physician Assistant Morgan Clarkson practices with OrthoIndy's orthopedic urgent care team, where she draws on her diverse experience to help patients feel heard, understood and confident in their treatment plans. Her background in Spanish language and culture also enables her to build stronger, more comfortable relationships with patients from a variety of backgrounds.

Morgan was inspired to pursue a career in orthopedics after her own experiences as a collegiate cheerleader, when multiple surgeries, including two at OrthoIndy, helped her return to the activities she loved. The care and expertise of her providers influenced her decision to become a PA with a focus on orthopedics.

Now certified by the National Commission on Certification of Physician Assistants (NCCPA), Morgan is an active member of the American Academy of Physician Associates (previously known as the American Academy of Physician Assistants) and Physician Assistants in Orthopaedic Surgery. She attended Butler University in Indianapolis, where she earned both her master's degree in physician assistant studies and a bachelor's degree in Spanish, with a minor in chemistry. She also obtained a bachelor's degree in nursing from Marian University in Indianapolis.

Dedicated to helping patients get back to feeling their best, Morgan brings both expertise and empathy to every patient encounter. Outside of work, she enjoys traveling, attending and watching sporting events, joining in family game nights, and spending time with her family and dogs. A fun fact about Morgan is that she studied abroad in Cuba.
